

EXPERIMENTAL STUDIES ON THE DIELECTRIC PROPERTIES OF LIQUID CRYSTALS

A Thesis Submitted to the
UNIVERSITY OF MYSORE
for the degree of
Doctor of Philosophy

By
C. NAGABHUSHAN

Liquid Crystals Laboratory
RAMAN RESEARCH INSTITUTE
BANGALORE-560 080, INDIA
JANUARY 1988

TO MY PARENTS

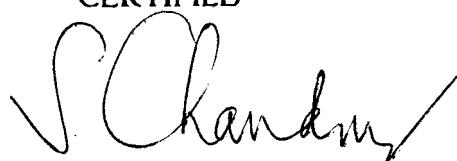

DECLARATION

I hereby declare that the thesis was composed by me independently and that it has not formed the basis for the award of any Degree, Diploma, Associateship, Fellowship or other similar title.

C. NAGABHUSHAN

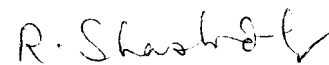

CERTIFIED

Professor S. CHANDRASEKHAR
Liquid Crystal Laboratory
Raman Research Institute
BANGALORE 560 080

C E R T I F I C A T E

I certify that this thesis has been composed by Mr. C. Nagabhushan, based on investigations carried out by him at the Liquid Crystal Laboratory, Raman Research Institute, under my supervision. The subject matter of this thesis has not previously formed the basis for the award of any degree, diploma, associateship, fellowship or other similar title.

Dr. R. Shashidhar
Liquid Crystal Laboratory
Raman Research Institute
BANGALORE 560080

ACKNOWLEDGEMENTS

The work described in this thesis has been carried out under the supervision of Dr. R. Shashidhar. I am deeply indebted to him for his stimulating guidance and constant encouragement throughout this work.

I wish to acknowledge my deep sense of gratitude to Prof. S. Chandrasekhar for providing me an opportunity to work with his group, and for his valuable suggestions and keen interest in my progress.

I express my sincere thanks to Dr. B.R.Ratna for her invaluable help and for very useful suggestions throughout the course of my work. But for her advice and encouragement this work would never have been possible.

My special thanks are due to Dr. S. Krishna Prasad for his help in computer programming, to Mr. S. Somasekhara for his cooperation in preparation of mixtures, and to Mr. H.Subramonyam, Mr. V.Nagaraj, Mr. A.Mani, Mr.K.Subramanya and the late Mr. K. T. Balakrishnan for their technical support. I am also extremely thankful to Mr. A. Ratnakar and his staff in the Library for their unstinting support and help. I thank all my colleagues in the laboratory for their cooperation and for making my stay fruitful and enjoyable. Thanks are also

due to Mr. S.Raghavachar for the excellent and efficient typing of this thesis and also to Mr. H.P.Subramanya for his help in proof-reading it.

It is my duty to express my thanks to the University Grants Commission for providing me a fellowship under the Faculty Improvement Programme and to the Management, Veerasaiva Vidyavardhaka Sangha and the Principal, Veerasaiva College, Bellary, for sponsoring my name and providing me an opportunity to work for my Ph. D.

Finally, I wish to thank my brother-in-law Mr. B. Jayana Goud, sister Smt. Gowamma and my wife who relieved me from many domestic responsibilities which helped to concentrate on research work.

C. NAGABHUSHAN
