

VIBRATIONAL SPECTRA OF LIQUID CRYSTALS

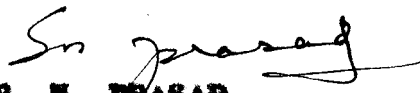

**A Thesis submitted to the
University of Mysore
for the degree of
DOCTOR OF PHILOSOPHY**

**By
S. N. PRASAD**

**Liquid Crystals Laboratory
Raman Research Institute
Bangalore-560080, India
August 1982**

DECLARATION

I hereby declare that this thesis was composed by me independently and that it has not formed the basis for the award of any Degree, Diploma, Associateship, Fellowship or any other similar title.

S. K. PRASAD

'Certified'

CERTIFICATE

I certify that this thesis has been composed by Mr. S. H. Prasad based on investigations carried out by him at the Liquid Crystals Laboratory, Raman Research Institute, under my supervision. The subject matter of this thesis has not previously formed the basis of the award of any degree, diploma, associateship, fellowship or other similar title.

**Professor S. Chandrasekhar
Liquid Crystals Laboratory
Raman Research Institute
Bangalore 560 080**

ACKNOWLEDGEMENTS

The investigations reported in this thesis were carried out at the Raman Research Institute, Bangalore, under the guidance of Prof. S. Chandrasekhar. I am greatly indebted to him for his guidance, support and keen interest in my work. I am also deeply indebted to Dr. S. Venugopalan for his constant help and valuable suggestions from both at home and abroad. I am grateful to Dr. N.V. Madhusudama for his valuable comments and suggestions during the preparation of the thesis.

I am also grateful to all my colleagues in the Raman Research Institute for their help and cooperation at various stages of the work. In particular my thanks are due to Dr. J.R. Fernandes, Dr. B.K. Sadashiva, Dr. V. Surendranath, Dr. R. Sashidhar, Dr. K.A. Suresh, Mr. K.T. Balakrishnan, Mr. S. Raghavachar, Mr. A. Ratnakar, Mr. K. Vasudevan, Mr. J. Padmanabhan, Mr. M.R. Subrahmanyam and Mr. K. Subramanya.

My work was made possible through a three-year Teacher Fellowship awarded by the University Grants Commission and grant of leave of absence for the same duration from my teaching job at the Regional College of Education, Mysore, by my employers, the National Council of Educational Research and Training. I am greatly indebted to both these agencies.

Lastly, my sincere thanks to Prof. G.V.Govinda Rao for his enthusiastic interest in my work and to my brother, wife and daughters for their sustained support.

August 1982

S. N. PRASAD

CONTENTS

	Page	
Chapter 1	Introduction	1
Chapter 2	Experimental Details and Procedure	25
Chapter 3	Far-Infrared Absorption in a Homologous Series of Liquid Crystals	52
Chapter 4	Polymerorphism of the Smectogen Ethyl- <i>p</i> -Azoxybenzoate: Far- Infrared and Raman Study	89
Chapter 5	Mesomorphism of <i>p,p'</i> -di- <i>n</i> - Pentylazoxybenzene	111
Chapter 6	Molecular Flexibility and Orientational Statistics: Raman Study of 7OB and 8 OOB	127
Appendix A	Theoretical background concerning the Raman Measurements of $\langle P_2 \rangle$ and $\langle P_4 \rangle$	148
Appendix B	Procedure and Program used to Calculate $\langle P_2 \rangle$ and $\langle P_4 \rangle$ from Raman Depolarization Ratios	161
